Report 2018

गुरुर्ब्रह्मा गुरुर्विष्णु गुरुर्देवो महेश्वरः
गुरु साक्षात् परब्रह्मा तस्मै श्रीगुरवे नमः

From the Editor's Desk.....

Despite great advances, the economic and social challenges faced by people in India are pervasive. Statistics indicate about 66 % of Indian population lives in the rural areas, of which a sizeable portion is stated to be poor and devoid of basic amenities such as water, electricity and health. Those who reside in the remote and hilly locations tend to be much more vulnerable. Leaving aside emergency services, even the elective surgical services are unavailable to the inhabitants there.

It is so ironical that the best brains from India's medical colleges prefer to settle either in the metropolitans or abroad, simply because of poor infrastructure in the rural areas or perhaps due to lack of adequate opportunities for them and their children. The outcome is that the ungroomed undergraduates are posted in the villages to work and serve in the ill-equipped government run hospitals and clinics. This may mean that half of our population has access to only substandard medical treatment. This is a serious affliction of India's health system today which has far reaching implications for the future generation and their well-being. We must remember however, that it is easy to complain about the bad circumstances, what is required today, is the courage to challenge it and change it!

In 2009 a group of groomed professionals, the medical super specialists, in an effort to give back to the society, initiated the concept of conducting elective surgical ventures in remote locations

under the banner of Okti Foundation. The Project was initiated in a village called "Shillai in Himachal Pradesh" where utero vaginal prolapse was rampant. The women here were managing their prolapse by pushing their uteri in using their fingers. The smell of urine surrounding them was making them social recluse. A surgical intervention in a city hospital would deprive them of their lifetime savings and would put their family's earning too at stake. So the need of the hour was to provide them with adequate and prompt services to save them from prolonged morbidity, social exclusion and embarrassment pertaining to bladder & bowel incontinence thereby improving their quality of life. We constantly expect the Government to solve our problems and blame it ! Why should we, when we have the power to make the change that we want to see!

A unique model of raising funds from family, friends and companies under the CSR, recruiting skill from the city and encouraging community participation, has helped Okti to conduct surgeries in the village hospitals at a low cost. Each camp requires few days away from work and family. This model not only helped the poor with elective surgeries but also helped to enable skill development and capacity building in the village setup. The villagers specially poor mothers with prolapse got benefitted at their door step free of cost. The entire expenditure on surgery and food was borne by the organization. The local hospitals were very generous and contributed to the cause in their full capacity. The Surgical Team volunteered to render services to the fellow men disadvantaged due to their difficult locations. The dedicated team of doctors, paramedical staff, financial partners, the village hospitals and community took over the herculean task as their moral responsibility and brought smiles to many faces. The mission, in next five years plans to scale up the number of beneficiaries & extend to many other states of India.

Our land is too big for any one group or system to provide the needed surgical and medical care for all. So the need for small groups like Okti ! We are insignificant from the nation's point of view yet we feel compelled to do something to alleviate the unnecessary suffering of a few. If such care can be multiplied across this land by small groups of committed professionals then a greater degree of wellbeing could be experienced by many more. We should break free from the restrictions imposed by various power structures and be involved in caring for the disadvantaged in our own unique way !

This report relates to the year 2018 in which the organization won many accolades at National, International and state levels for its contributions towards the Rural Services in

India. Having accomplished more than 5000 surgeries in 55 camps conducted all over India in past 10 years, the Organization won appreciation by the Health Minister of India, Federation of Obstetricians and Gynecologists of India, The British Medical Journal, South East Asia , Delhi Gynaecologist Forum and WOW India. The Organization is ever thankful to its dedicated team of doctors, paramedical staff, financial partners and the village hospitals and community for their generosity and continued support. We hope to work together as a team in the coming years as well.

Dr. Sonal Bathla

Consultant Gynaecologist & Laparoscopic Surgeon
Sant Parmanand Hospital,
Delhi Secretary General, Okti Foundation

**Weary eyes watch twisted paths, for
those who can help and give,
Health and dignity to their ailing bodies,
they too have the right to live!**

**Let their suffering not end with the
sunset of their lives,
Let's be of some help to others before**

A Message.....

Cervical cancer is the second most common gynecological malignancy amongst Indian women aged 25-44 years and the incidence is as high as 22 per 100,000 women. Infact, India accounts for more than a quarter of the world's annually detected new cases and deaths due to the disease despite the availability of vaccination for prevention of cervical cancer. Every eight minutes one woman falls prey to this dreaded disease.

These high rates suggest that women are not reaching the clinic at the right time in preinvasive stage, they are not giving due importance to their annual screening and/or facilities to screen are not available to them. The etiopathology of the disease makes certain sections of the population more prone to it. Due to lack of National Cancer Screening Guidelines and poor awareness, hygiene, literacy and vaccination status in urban slums and remote villages, it was decided to direct the initiative towards the women belonging to this background. The Project of Cervical Cancer Awareness, Screening and Vaccination was initiated under Okti Foundation in the year 2017.

In the organization of a Project, interaction with the targeted women is initiated at grassroot level for which the local leaders, anganwadi workers and political heads of the area are approached and an informal awareness campaign is held within the community to sensitise women and young girls. The logistics for screening session are designed keeping in mind the weather, free timings of the womenfolk, accessibility, and respect for their privacy. The women usually feel motivated to attend as they see others doing the same.

A temporary opd set up is created with full attention to record keeping, systematic channelizing of patients, use of sterile equipment and an ear to their other medical complaints and queries. A team of about 20 members comprising doctors, nurses and paramedical staff are assigned duties to carry out cervical cancer screening using VIA, VILI followed by LBC with reflex HPV testing in VIA positive cases. The screen positive cases are located, informed and formally referred to the nearby referral centre. The additional benefits of this health

activity includes screening for anemia, diabetes, hypertension, general physical examination and breast examination. Mammography in mobile unit for women over 40 years and vaccination against HPV for girls 11 - 15 years are arranged simultaneously to make it worthwhile for practically every female member in the community. These outreach camps are the need of the hour and its time for the country and its caregivers to awaken to the call.

Dr Priti Arora Dhamija

Consultant Gynaecologist
Sita Ram Bhartiya Research Institute,
Delhi

January-December 2018

I Surgical Ventures

OKTI Foundation, Delhi in collaboration with Sant Parmanand Hospital, Rural Committee of Indian Menopause Society, Association of Gynaecologists of Delhi & RCOG(NZ) organized nine Surgical Ventures in seven Indian states in year 2018. A total of 262 poor patients got benefited from surgeries and many got the advantage of the awareness and the screening programmes. The Foundation raises funds for elective surgeries to help people in remote locations, especially those who are marginalized and vulnerable in a low socio-economic set up. The Ventures were conducted at the following locations free of cost.

Civil Hospital, Joginder Nagar, Himachal Pradesh- April 27-29, 2018

Supported by the Rotary Club Joginder Nagar, and Shree Cement Ltd., a total of 25 patients were operated. The surgical team included Dr George Verghese, Dr Vinod Kalla, Dr Naresh Singla, Dr Apurna, Dr Amrita, Dr Krupa George, Dr Shailesh, Mr Harish, Sr Raksha and Sr Ancy.

Dr Prabhudas' Hospital, Totu, Shimla

August 17-19, 2018

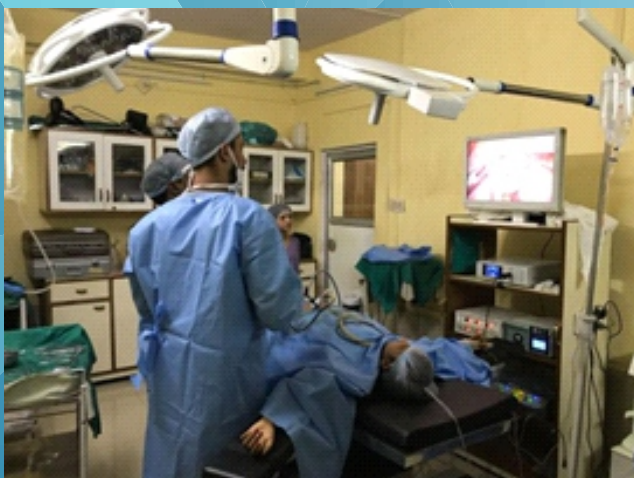

With financial support by the Oil & Natural Gas Corporation, 35 patients were operated at Totu, Shimla in Himachal Pradesh. The surgical team included Dr Prabhu Das and Dr Mandeep. All the patients were discharged in satisfactory condition.

List of Patients

S.No	Pt Name	Age	Sex	Address	Diagnosis	Procedure
1	Susheela	31	Female	Bishop Cotton School, Shimla	Symptomatic Cholelithiasis	Laparoscopic Cholecystectomy
2	Gyan Chand	41	Male	Bhaderi, Shimla	Complex Anal Fistula	Fistulectomy
3	Thakur Prasad	30	Male	Totu, Shimla	Chronic Fissure in Ano	Fissurectomy and sphincterotomy
4	Sarvadi Devi	66	Female	Sanjauli, Shimla	Symptomatic Cholelithiasis	Laparoscopic Cholecystectomy
5	Rajkumar	36	Male	Bhagav Niwas, Totu, Shimla	Symptomatic Cholelithiasis	Laparoscopic Cholecystectomy
6	Shanti Devi	23	Female	Master Building, Totu, Shimla	Acute Appendicitis	Laparoscopic Appendicectomy
7	Deep Ram Sharma	71	Male	Sunni, Shimla	Left Inguinal Hernia	Mesh repair of hernia
8	Seema	38	Female	Kotkhai, Shimla	DUB	Laparoscopic Hysterectomy
9	Khem Lal	50	Male	Totu Shimla	Haemorrhoids	Haemorroidectomy
10	Bimla	29	Female	Chayal, SHimla	Acute Appendicitis	Laparoscopic Appendicectomy
11	Jai Devanand	35	Male	Sunni, Shimla	Haemorrhoids	Haemorroidectomy
12	Abdul Mazeer	55	Male	Summer Hill, Shimla	Haemorrhoids	Haemorroidectomy
13	Veeru Ram	39	Male	Chayal, SHimla	Right inguinal hernia	Mesh repair of hernia
14	Heera Devi	46	Female	Nankhari, Shimla	DUB with Bulky uterus	TAH with B/L salpingectomy

15	Bola Prasad	54	Male	Jiyalal Building, Totu, Shimla	Haemorrhoids	Haemorroidectomy
16	Kanta Devi	75	Female	Joginder Ngr, Mandi	Acute Cholecystitis with cholelithiasis	laparoscopic Cholecystectomy
17	Dittu Ram	70	Male	Arki, Solan	Left inguinal hernia	Mesh repair of hernia
18	Parwati	48	Female	Chang, Shimla	Fibroid uterus with Prolapse	Vaginal Hysterectomy
19	Sewata Devi	68	Female	Jabbal Shimla	Epigastric Hernia	Hernioplasty
20	Kamla	50	Female	Sanjauli, Shimla	Epigastric Hernia	Hernioplasty
21	Bhuma	38	Female	Totu, Shimla	Chronic PID with Cervicitis	TAH with Salpingectomy
22	Poonam	31	Female	Sunni, Shimla	Symptomatic Cholelithiasis	Laparoscopic Cholecystectomy
23	Durga	40	Male	Mazgat Totu, Shimla	Haemorrhoids	Haemorroidectomy
24	Devender	34	Male	Vijay Ngr, Totu, Shimla	Left renal calculus	Nephrolithotomy
25	Hira Devi	37	Female	Rampur, Shimla	Left Non functional kidney	Nephrolithotomy
26	Sana Devi	40	Female	Shimla	Fibroid uterus	TAH with B/L Salpingectomy
27	Anu	38	Female	Shimla	Right PUJ calculus	Ureterolithotomy
28	Raniya	42	Female	Shimla	DUB	TAH with B/L Salpingectomy

29	Lal Bahadur	60	Male	Shimla	Anal Fissure	Fissurectomy and sphincterotomy
30	Krishna	65	Female	Shimla	Symptomatic Cholelithiasis	Laparoscopic Cholecystectomy
31	Sheetla	35	Female	Shimla	Fibroid uterus	TAH with B/L Salpingectomy
32	Anjana	25	Female	Shimla	Acute Appendicitis	Open Appendicectomy
33	Tuli Khatka	45	Female	Shimla	DUB with Bulky uterus	TAH with B/L Salpingectomy
34	Ram Lal	64	Male	Shimla	Symptomatic Cholelithiasis	Laparoscopic Cholecystectomy
35	Tota Ram	56	Male	Shimla	Non healing infected wound	Debridement and slough excision

Lehmon Hospital, Herburtpur, Uttarakhand

September 24-26, 2018

Total 33 patients were operated with support given by the the Oil & Natural Gas Corporation (ONGC). The Surgical team included Dr T C Sharma, Dr Viju John, Dr Sonal, Dr Bhawna & Dr Preeti Yadav. All the patients were discharged in satisfactory condition and few patients followed up for surgery in Delhi.

List of Patients

S.No	Name	Age	Sex	Diagnosis	Surgery
1	Dolly	34	F	Right Thyroid Swelling	Right Hemothyroidectomy
2	Mohd Samoon	42	M	Right Ureteric stone	Right URS Urethroplasty
3	Sheela Devi	50	F	B/L ureteric stone	B/L URS
4	Momina	29	F	Rt. Renal Stone	Rt. PCNL
5	Pankaj	13	M	Urethral Fistula	Urethroplasty
6	Rukmesh	26	M	Cholelithiasis	Lap Cholecystectomy
7	Rukmesh	26	M	Right Ureteric stone	Rt. URS
8	Ragbeeri	60	F	Ca Bladder	TURBT & Biopsy
9	Abdul Mannan	65	M	Ca Bladder	TURBT & Rt.Orchidectomy
10	Preeti	30	F	Left ureterovaginal Flstula	Cystoscopy stenting

Civil Hospital, Joginder Nagar, Himachal Pradesh November 10-11, 2018

In all, 17 patients were operated with financial support by Shree Cement Pvt Ltd . The Surgical team included Dr George Verghese, Dr Vinod Kalla, Dr Naresh Singla, Dr Apurna, Dr Amrita, Dr Krupa George, Dr Shailesh, Mr Harish, Sr Raksha and Sr Ancy.

Sant Parmanand Hospital, Delhi

Low risk patients were selected for surgeries at remote locations while the high risk patients were brought to Sant Parmanand Hospital, Delhi for effective surgical management in collaboration with the ONGC. During 2018, 22 such patients were operated at Sant Parmanand Hospital by Dr Sonal Bathla, Dr T.C Sharma, Dr Preeti Yadav, Dr. Kalla, Dr B.N. Seth & team. The administration of the hospital including Sh B.G.Bangur, Sh B.R. Maheshwari, Dr Shekhar Agarwal and Dr Nirmala Agarwal were ever encouraging.

List of Patients

S.No	Name	Age	Sex	Diagnosis	Procedure
1	Varginia	50	M	Renal Stone	Left DJ Stent removal, Left PCNL
2	Shazia Awais Shamsi	22	F	Pregnancy	LSCS
3	Gulfam Kusar	45	M	Haematuria	Cystoscopic Biopsy
4	Pooja Tiwari	28	F	Completed Family	Lap Sterilization
5	Tushar	15	M	Ureteric Stone	DJ Stenting, Right RIRA
6	Qamar Sultan	60	M	Ureteric Stone	B/L DJ Stenting

7	Parveen Kumari	56	F	Bladder Tumour	TURBT
8	Kishwar Jahan	45	F	Ureteric Stone	Left URS with DJ Stenting

II OKTI's Other Ventures toward Rural Wellbeing

Awareness & Screening Camps

1. A General Medical Camp was organized on 15th September 2018 at Coolie Camp Slums in Vasant Kunj Delhi with ONGC, inaugurated by Minister of Petroleum & Natural Gas and Skill Development & Entrepreneurship in the NDA Government Sh Dharmendra Pradhan in which a large number of patients got benefitted. The team members included Dr Sonal Bathla, Dr Priti Yadav, Mr Dharam, Ms Saira, Ms Kulpreet and Ms Sweety.
2. Awareness camp on Cervical Cancer Screening, Vaccination and sanitation at Swami Dayanand Kanya Vidhalaya , Delhi in October 2018. A group of 200 girls around 14 years of age , were sensitized by Dr Sonal Bathla.
3. Awareness camp on Cervical Cancer Screening & Vaccination at Govt Model School Manali on 7th October 2018 where about 200 girls from 10th standard were sensitized by Dr George Verghese, Dr Sonal Bathla, Dr Sarah and Mr Ajay from 'Save Manali' NGO.

4. An Awareness Session for Antenatal Women was organized monthly at Dr Sonal's Urogynae Clinic throughout the year where the antenatal women were counseled about ante, intra and postpartum care, supplementation of haematinics and Garbh Sanskar by Dr Sonal Bathla and Dr Priti Yadav. Training in yoga and antenatal exercises was given by Dr Divya.

III Awards in the Year 2018

1. "Compassion Extra Ordinaire" Award to Dr Sonal Bathla on 1st June 2018 by Sh J P Nadda, honourable Health Minister of India and FOGSI President Dr Jaideep Malhotra for the surgical services and capacity building at remote villages pan India by the dedicated Team of Doctors.
2. The Okti Foundation represented by Dr George Verghese (Surgeon), Dr Vinod Kalla (Anaesthetist), Dr T.C Sharma (Urologist), Dr Sonal Bathla (Gynaecologist), was adjudged Runners up in South East Asia BMJ Awards in "Best Surgical Team Category 2018" amongst nine countries and 1595 entries for contribution towards the Surgical Services and Capacity Building in Rural India.
3. "Woman of the Year Award - 2019 " was awarded to Dr Sonal Bathla by the "Delhi Gynaecologist Forum" and 'Wow India' on 4th Jan 2019 in Delhi for the contributions of her team to the health Sector in India.

Acknowledgement

The Okti Foundation acknowledges the contributions of all the doctors, paramedical staff and community workers for their voluntary services for the cause of humanity. The Financial contributions made by various organizations and individuals, exempted under 12A and 80G, are highly appreciated. The Awards conferred upon the organization by various Organizations and Institutions not only boosted the morale of each and every member of the organization but also enhanced the credibility to the authentic work. It has encouraged many more people to associate themselves to this humanitarian work. The financial contributions from the following donors are highly appreciated.

- Oil and Natural Gas Corporation
- Shree Cement Ltd
- Sh. B.R. Maheshwari
- Sh. H.L. Bathla
- Smt. Sumitra Bathla
- Dr. Naresh Taneja
- Mrs. Indu Taneja
- Zydus Healthcare
